

Micro & Molecular Biology Laboratory Services

Omya Microbiology

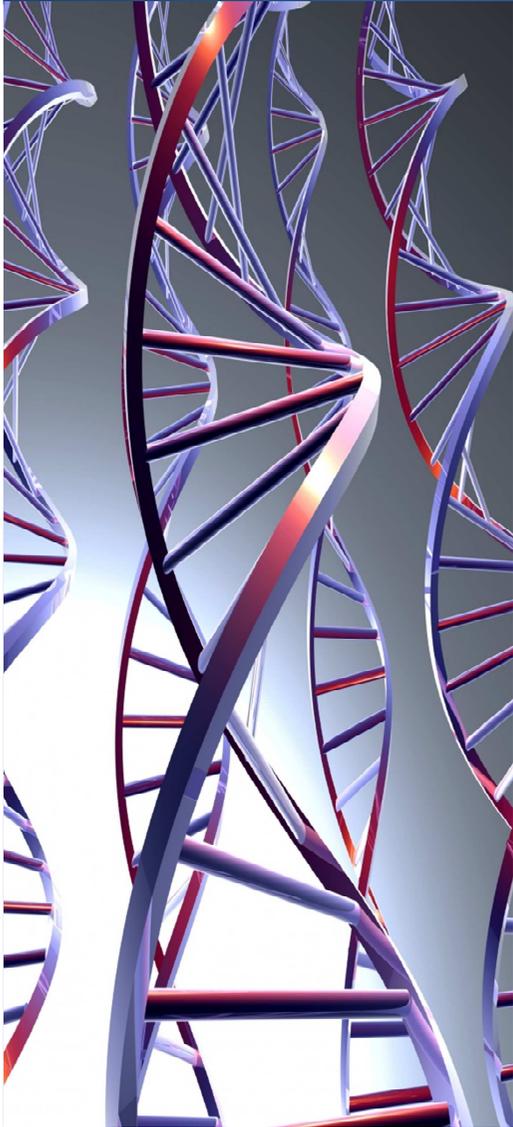

Laboratory Services

Bacterial and Fungal Identification with **MS** **Maldi-ToF Biotyper**

- **Rapid**
- **Cost efficient**
- **Reliable**

Laboratory Services

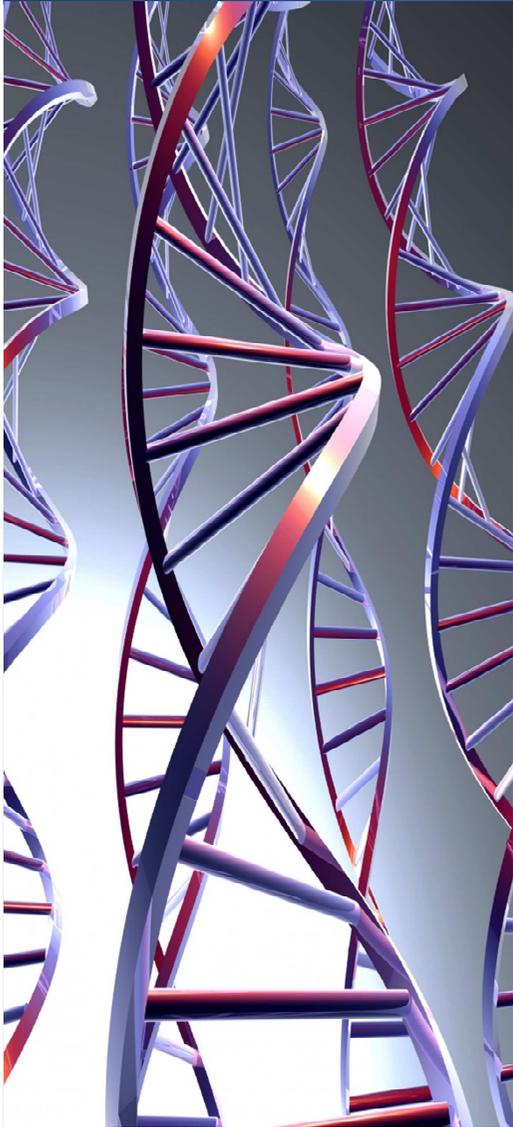

Assays according to OECD or ISO standards:

- **AMES-Test:** Bacterial reverse mutation test, assay for test of mutagenic properties of chemical substances – **OECD 471**
- **Test for aqua toxicity:** Freshwater Alga and Cyanobacteria Growth Inhibition - **OECD 201**

The new ICH M7 guideline (Assessment and Control of DNA Reactive (Mutagenic) Impurities in Pharmaceuticals) instructs with immediate effect the Ames test

Laboratory Services

The European Commission is currently developing new criteria for the regulation of hormonally active compounds/endocrine disruptors (EDs) that will be applied to **pesticides** (plant protection products), **biocides**, **general chemicals (REACH)** and **cosmetically approaches**.

Omya Microbiology offers:

- **YES/YAS-Assay** (Yeast Estrogen Screening and Yeast Androgen Screening)
The test is performed with yeast cells for the detection of substances that activate or inhibit human estrogen or androgen receptors.

Laboratory Services

...and much more in our ISO 9001 certified BSL2 labs
