For immediate release

Omya acquires the assets of Mexican Perlite producer Accimin

Oftringen, March 18, 2021

Omya, a leading producer of industrial minerals and a worldwide distributor of specialty chemicals, has acquired the assets of Accimin S.A. de C.V., a perlite producer in Mexico

Accimin specializes in expanded perlite applications for filtration and horticulture. The business is complementary to Omya's perlite strategy and Omya's existing perlite business, Termolita.

Rainer Siedler, CEO Americas at Omya noted: "We are very excited to strengthen our perlite asset base and are looking forward to serving Accimin's clients in Mexico and overseas."

Edgar Valmaña, General Manager of Termolita added: "Combining Accimin's and Termolita's resources will help us accelerate our strategic goals in perlite. We will be able to serve all our customers more effectively on a pan-regional basis and offer them even more competitive solutions".

Alejandro Rauh-Hain, President of the Board of Directors of Accimin added: "We are pleased that with Omya and Termolita we have found a partner sharing similar cultural values and can ensure continuity in the service for our customers. Together with the Termolita team we will work hard towards a seamless transition."

About Omya

Omya is a leading global producer of minerals – mainly derived from calcium carbonate and dolomite – and a worldwide distributor of specialty chemicals. The company provides a wealth of product solutions that contribute to its customers' competitiveness and productivity in multiple industries such as Construction, Printing & Writing, Technical Polymers, Packaging, Food, Personal & Home Care, Pharmaceuticals, Agriculture and Forestry, Water and Energy. Founded in 1884 in Switzerland, Omya has a global presence extending to more than 175 locations in over 50 countries with 8,000 employees.

Committed to implementing the principals of sustainability at all company levels, Omya provides value-added products and services from responsibly sourced materials to meet the essential needs of current and future generations.
