## Omya completes the acquisition of specialty chemical distributor Hall Technologies.

**CINCINNATI (OH), April 1, 2022**

**Omya, a leading global producer of industrial minerals and a worldwide distributor of specialty ingredients, has successfully completed the acquisition of Hall Technologies, Inc.**

Hall Technologies' excellence in the specialty chemical distribution will enhance Omya's network in North America and position Omya to better serve customers and principals throughout the United States and beyond.

Omya welcomes all Hall Technologies employees and management to the Omya Group.

### About Omya

Omya is a leading global producer of industrial minerals – mainly derived from calcium carbonate, dolomite and perlite – and a worldwide distributor of specialty chemicals. The company provides a wealth of innovative product solutions that contribute to its customers' competitiveness and productivity in multiple industries such as Construction, Paper & Board, Polymers, Food and Personal & Home Care. Omya further provides Environmental Solutions targeting the agriculture, water and energy markets. Founded in 1884 in Switzerland, Omya has a global presence extending to more than 160 locations in over 50 countries with 9,000 employees.

Committed to implementing the principles of sustainability at all company levels, Omya provides added value products and services from responsibly sourced materials to meet the essential needs of current and future generations.

### About Hall Technologies

Hall Technologies, Inc. is a specialty chemical distributor located in St. Louis, Missouri. Our Technical Sales team serves customers throughout the Midwest, Upper Midwest, South, Southwest, Southeast, and Ohio Valley. Our in-house applications laboratory provides support for our customers' formulation, product selection, and applications testing needs. We supply answers. In the 1980's we started recruiting our sales team from laboratory positions. This meant that our sales representatives could understand the process of formulation and performance testing along with the products that would best meet the needs of our customers. Our strategy shifted from selling to partnership and collaboration.
